## To our Valued Customers around the World:

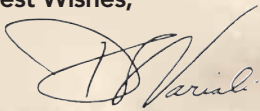

Another new and exciting year is developing at Denny Manufacturing. Please look through our new and expanded Volume 32 catalog with 180 pages of classic and new products for 2006.

As of this writing, Denny Manufacturing is acquiring the Scenic Design Company of Murray, Utah. Scenic Design is well known for its exquisite set and prop designs. This acquisition will be a great asset for our company. Our customer base will also benefit greatly from the addition of Scenic Design to the Denny family of companies as we bring new and innovative products always. Last year, we introduced our Photo Gift Fulfillment Center "Denny Novelty"<sup>®</sup>. Thanks to you, it has been a tremendous success and has been growing by leaps and bounds.

We can always gauge part of our success when our competitors attempt to come up with cheap copies of our products. Beware of these knockoffs because they rarely come attached with any customer service or satisfactory return policies. In contrast, Denny Manufacturing guarantees your satisfaction with all of our products as it has for nearly 35 years. We take pride in our products as we do our reputation in the industry.

We will continue to develop new and innovative products to help you succeed in the Professional Photography business. I thank you for your continued loyalty and wish you a great and prosperous 2006.

Best Wishes,

**Denny Variali**  
President and CEO

# WHAT YOU'LL FIND INSIDE...

## HAND PAINTED BACKGROUNDS

Our hand painted backgrounds are at a quality level all their own. After 30 years of experience, we've mastered creating the perfect hand painted replicas everytime. We have mastered the smallest of details in the Scenics and the most delicate of color changes in our Old Masters, Old Master Textured, Solids, Splashes and Muslins. All together, our six series of hand painted backgrounds are sure to please.

## COMPUTER PAINTED BACKGROUNDS

Although we haven't had as much time to fine tune our skills in the digital realm, in just a matter of a few years we've come to be one of the best in delicate color correction of digital images. Working intricately with our scanners, printers, inks and output media, we've also mastered outputting computer painted backgrounds which are high quality, cost-effective and very realistic. We can even offer personalization of any image thanks to Denny Colorgraphic's grand format inkjet printing.

## SPECIALTY BACKGROUNDS

In addition to our hand painted and computer painted backgrounds, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backgrounds, support systems and miscellaneous items can help your studio function at its best.

## ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

We would like to extend a sincere thanks to the professional photographers who contributed to this year's catalog. They include: Bill Abey, Don Blair, Mike Daniels, Victor Doran, Vicki & Dennis Fisher, Andy Gould, Mike Nall, Tony Licata, Monte Nowak, Ralph Romaguera, John Earl, Ed Pierce, Rex Enochs, Annette Ochs, Kimberly Phillips, John Rapier, Cindy Pruitt, Laura Cantrell, Monty Zucker, Ann Cessna, Anthony Fiocco, Don Puckett, Cynthia M. # Computer Painted Old Masters

The Old Master background is a work of art and no two Old Masters have ever been the exact same until now. Masterfully designed, large format photographed, drum-scanned at a phenomenal resolution and painstakingly reproduced, our Computer Painted Old Masters are simply beautiful. Reproducing these by hand takes so much time we decided to offer them to you perfectly replicated with the original art intact and unchanged. Filled with subtle detail and color shifts, our CPOM line provides old world style via modern technology.

CPOM10

These Old Masters were created specifically for this process. Ordering these hand painted anywhere else would take a considerable amount of time and no guarantee for the final products color or such true attention to detail. What you see here is what you get with only a slight color shift due to printing processes of this catalog we cannot control. Full-lengths have a darkened, complimentary colored floor.

## NEED A WIDE BACKGROUND TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Photo Realistic Muslin (PRM) backgrounds are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Muslin background eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of weather on the day of your photo shoot. Choose from any of our Computer Painted Backgrounds. Traditionally, our Computer Painted Backgrounds have been printed on a canvas-like material called Supercloth.

The Photo Realistic muslin backgrounds are made on a flexible special muslin material which can be easily draped like typical muslin backgrounds or pulled tight for a more traditional effect. The muslin material is a light and compact material which easily fits into the FREE muslin bag for easy portability.

When ordering the Photo Realistic Muslin background, make sure you specify width x height to avoid any printed dimensional errors. A 3" Hem is put in the top width of the background to alleviate the need for background clamps! It is safe to use an iron or steamer on the background should it acquire wrinkles.

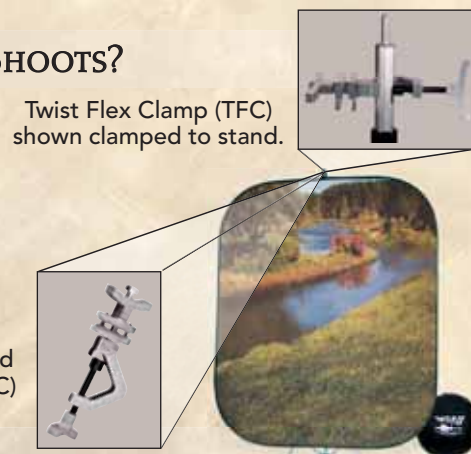

Production time for Computer Painted or Photo Realistic Muslin backgrounds run approximately 2 weeks. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

## NEED A QUICK & EASY SET-UP FOR YOUR ON LOCATION SHOOT?

If you like the light compact quality of the Wondercloth backgrounds, but always want the background stretched tight, a Twist-Flex background could be for you! You can get any computer painted background as a Twist-Flex. Twist-Flex backgrounds are available in 5' x 6', 6' x 7' and 6' x 8'. These backgrounds twist down in their self-storing bags to 24", 33", & 35" respectively.

PRTM6239, Single Stand & Twist Flex Clamp (TFC)

## LOOKING FOR A UNIQUE BACKGROUND?

If you have an idea that's just what you want but no where to find it, ask one of our friendly sales associates about the possibility of turning your vision into a Computer Painted reality. You can design custom prom backgrounds to be school/theme specific or you can place your customers in front of Mt. Rushmore without leaving the studio. We've completed countless projects that were once only a dream. Send us glossy stock, transparencies, negatives, sketches or you can have us compose a final image for you.

# A FEW TIPS ON CP BACKGROUNDS

## “PRODUCT IMAGES ARE WHAT SIZE?”

The images displayed throughout the catalog are sized as a 6x8. If you were to order a 6x8 of the CP6105, the normal product shot displayed in this catalog should be what you receive.

## “FOLD LINES FOR FULL-LENGTH?”

Other sizes such as an 8x16 with a 9ft wall will still be folded as shown but will have less floor with the top proportionately scaled. Scene elements such as doors or windows will have a proportionate scale to a human.

Traditional HalfWay Point / Fold Line  
For Full Length backgrounds

Be sure to read Bill Abey's suggestions on choosing the right background as well as the right background size on page 112.

# NEW!!! POINT OF SALE PRODUCTS

Make your reception area or booth the life of the show! After years of exhibiting at photographic tradeshows, single banner stands were finally introduced and the response has been phenomenal. Now, by popular demand, we are designing custom banners for all businesses to illustrate their unique photographic artistry. Our extremely talented graphic artists will design the stunning banner that will definitely get client's attention! Assembly and storage of the banner stand is easy, quick and convenient.

## What do I need to do to have a custom banner stand made?

There are three options:

1. Upload images onto our website. (See below for more information.)
2. Send in an 8"x10" gloss print for scanning
3. Send in a .jpg file with the layout/image(s). The file must be at least 300 dpi or higher, CMYK, the image size must be inches in proportion to feet (1 Inch = 1 Foot,) and there should be NO compression on the .jpg file(s) when saved.

## What is production time for a custom computer painted background or banner?

Production time is approximately 2 weeks. Production time may vary due to seasonal demand.

## How do I upload images or do a file transfer to the Denny website?

Visit [www.dennymfg.com/banner/](http://www.dennymfg.com/banner/) via your favorite internet browser, and follow the instructions contained on this web page.

# DENNY MUSLIN TRACK SYSTEMS

## Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Muslin Track Section.
- A 10' wide muslin background takes up 1-1 1/2 feet of storage space on the system.
- Ordering muslin track sections that are 8' wide or less can ship via Federal Express service. All muslin track sections longer than 8' will ship via truck.
- To hang your muslin background, most prefer to use one MCH-15/MC-15 per foot of the background.

## MUSLIN TRACK SYSTEM PRICING

Our Muslin Track System keeps your muslin and other fabric backgrounds easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backgrounds can easily be managed on one track. Have your studio dimensions ready for the sales associate to help you order just what you need. Track system sold by the foot and is shipped via FedEx up to 8' in length. Longer pieces require motor freight shipping. One clip and one hook is included with each foot of track sold.

# LIGHTING EQUIPMENT

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light.....The smaller the light source and the greater the distance from the the subject, the sharper the light.

**Umbrellas:** If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

**Soft Boxes:** (Round or rectangular or square) are photographically safer to use than umbrellas.

## WHITE UMBRELLA

This Translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

- 4011 (33") .....\$14 (S-1)
- 4012 (40") .....\$16 (S-1)
- 4013 (43") .....\$20 (S-1)

## SILVER UMBRELLA

Provides the maximum light output (1/2 F-Stop more light than the other umbrellas), though the light reflected is harsher than the white material. It is best suited as a main light on single individuals when you want more secular highlights in your portrait and if you have a very good understanding of lighting.

- 4021 (36") .....\$30 (S-1)
- 4022 (40") .....\$35 (S-1)

## 40" BLACK & WHITE UMBRELLA

Allows virtually no light to pass through which brings about a very efficient light bounced to the subject. This umbrella is a much safer choice.

- 4014 .....\$25 (S-1)

## GOLD UMBRELLA

Gold Umbrella warms the scene and creates healthy-looking skin tones. If you select this light source, you should also use one as your fill light or use a reflector as your fill light. This umbrella is also more secular and is best used for portraits of individuals.

- 4023 (36") .....\$34 (S-1)
- 4024 (40") .....\$38 (S-1)

## 40" DETACHABLE UMBRELLA

Has a removable black, light-blocking cover and a plastic carrying case. Optionally, the umbrella may be used with the light-blocking cover in cases where you do not want the light bouncing around the room and removed when you do want the light bouncing around the room.

- 4015 .....\$29 (S-1)

## SILVER / GOLD UMBRELLA

The Silver/Gold Umbrella is warm and yields high contrast image. Great for skin tones.

- 4026 (40") .....\$50 (S-1)

Sometimes truck companies have additional charges, i.e. residential delivery charges or inside delivery charges. ## ABOUT BACKGROUNDS.

by Bill Abey M. Photog. CR. ASP.

**B**ackgrounds are key elements in the creation of unique quality portraits. They are a vital investment that can provide greater financial return if your selections are based on purpose and versatility as well as imagery. Selections should be based on several important questions which should be answered before making the purchase.

Some of these questions are, what size is best? The size of the background will depend on the type of photography you will be doing; i.e., head & shoulder only, or everything from full length to extreme close-up. Will you photograph vertical and horizontal, adult couples, children only, children and adults, families or all of the above?

Another question is what types of statements will the background help you say: classical, casual, formal, high school senior oriented, pre-school, families, etc.

Photography means *writing with light*; as we photograph someone we are making a statement about them... The more statements you make about each subject the more portraits you will sell, therefore, an investment in a variety of different style backgrounds is important. Sometimes it's better to invest in a larger 10x18 Computer Painted Pictorial Portrait Background (CP) than several smaller backgrounds; because you can photograph different areas of the background, which is more productive.

In photographing for the Denny catalogue, I put each background through a test that I call *The Versatility Test*<sup>®</sup>; i.e., can I photograph from the floor, ladder, and everywhere in between? How many different looks/statements can I get from the background, by photographing to the left or right side, close-up to full length and everything in between. Backgrounds that pass *The Versatility Test*<sup>®</sup> usually end up being the most popular. You will be able to get greater versatility from a background that includes a floor area.

**Props:** Look for props that will work with your background. Many can be faux painted to match or blend with the background. Props help add a 3D effect and increase posing possibilities. They are a great investment by adding realism and style to the portrait.

## BACKGROUND SIZE GUIDE CHART.

For Muslin, Old Master, the CP/Portrait Pictorial Backgrounds and CP/Old Master Backgrounds

### 10' Wide x 18' Long:

This size will provide you with the greatest versatility and posing possibilities from extreme close-up to full length portraits of individual adults, children, couples and family group portraits. You will be able to photograph from the floor looking up, a ladder looking down, and everything in between.

**Back Wall:** 10' wide by 9' high

**\*Floor Area:** 10' wide by 9' deep

**\*\*Subject Placement:** 6/7' from background

### 8' Wide x 16' Long:

This size will provide you with versatility and many posing possibilities from extreme close-up to full length, individual, couples and small group portraits.

**Back Wall:** 8' wide by 9' high

**\*Floor Area:** 8' wide by 7' deep

**\*\*Subject Placement:** 5/6' from background

### 7' Wide x 14' Long:

This size will enable you to photograph extreme close-up to full length vertical standing of children and  $\frac{3}{4}$  standing of adults, horizontal floor poses of adults, children, even tight couple poses are possible.

**Back Wall:** 7' wide by 8' high

**\*Floor Area:** 7' wide by 6' deep

**\*\*Subject Placement:** 4'-5' from background

### 6' Wide x 12' Long:

This size is very portable and will fit in most cars. It is great for full length portraits of children. It also works for  $\frac{3}{4}$  portraits of adults seated or standing.

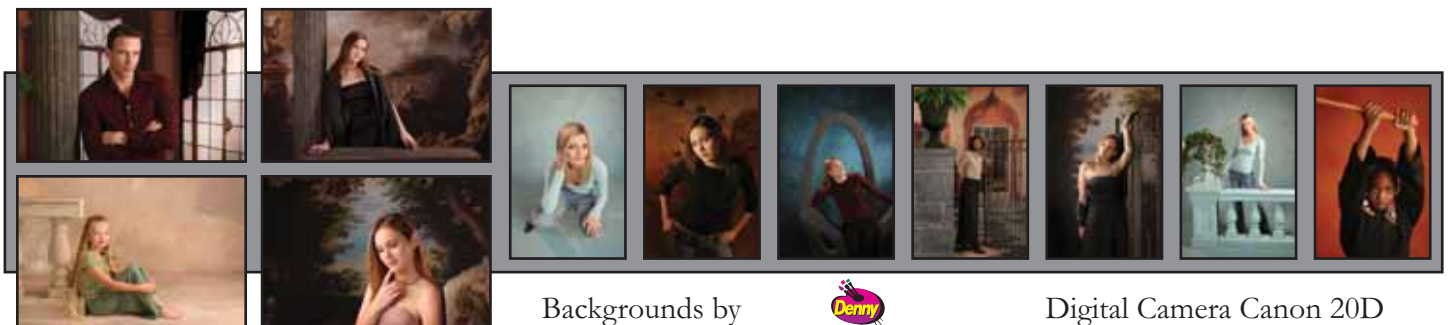

**Back Wall:** 6' wide by 7.5' high

**\*Floor Area:** 6' wide by 4.5' deep

**\*\*Subject Placement:** 3/4' from background

\* The floor area can be removed if you are only photographing head & shoulder,  $\frac{3}{4}$  length and hand poses.

\*\* This is the normal subject placement. You are not limited to this distance. As you move the subject and lights closer to the background, it will appear lighter, and shadows may be evident. The opposite is true when you move further away from the background. 📷

## THE VERSATILITY TEST®

As you can see from the images I have photographed on this page, the 10'x18' size with a 9'x10' back wall passes *The Versatility Test*®. These backgrounds are the most versatile because you are able to photograph looking up from the floor, down from a ladder, the left side, the right side and everything in between. You are really getting two or three backgrounds for the price of one.

# SCENIC *Design*

**Ron Kramer**  
*Grand Rapids MI*

"I wanted to say thank you for the excellent service you've provided us over the past year. The new sets are fantastic and have made this the most enjoyable year shooting, since starting my studio over 20 years ago."

**Michael K Lamm**  
*Lamm, Celina OH*

"I have never had a company work so hard for my satisfaction. In the past, I have often had suppliers make promises that they later did not keep. But I would like to commend Scenic Design for coming through for me when I needed you."

**Kenneth Linge**  
*Orem UT*

"I started using Scenic Design products when I first saw them in 1996, while I was living in Norway. What impressed me was their artistic integrity. Scenic Design sets look real and that's important to me and my clients."

**Joey Coleman**  
*Tabor City NC*

"I have both the Plantation Arch and Midtown sets. They are both wonderful props for my studio. I would highly recommend any of your sets or props to any photographer. The design and durability of your sets is superior because I'm a ding and bang the props type of photographer."

Denny Scenic Design creates an inviting and exciting environment right in your studio. The ambiance of Scenic Design adds interest and intrigue to every photo. Add new dimensions to your photography today!

# Thank You...

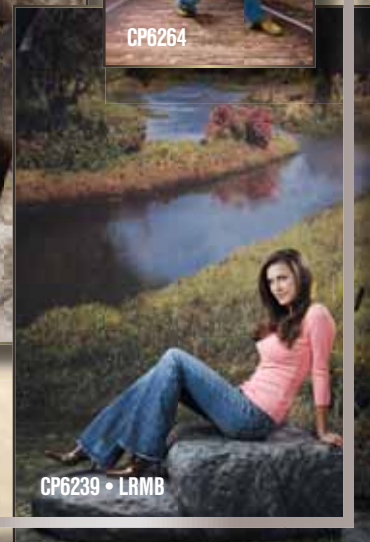

GREAT PORTRAITS TELL A STORY. THE STORY TOLD ON THIS PAGE IS EASY TO DISCERN. WE START WITH A VERY COURAGEOUS, YET LOVING COUPLE WHO NOT ONLY PROTECT ALL AMERICANS WHILE SERVING IN THE MILITARY, BUT ALSO PROTECT THEIR TWO BEAUTIFUL CHILDREN. THEY SHARE A LOVE FOR OUR COUNTRY AND A LOVE FOR EACH OTHER AND THEIR CHILDREN. SOMETIMES, WE GET SO CAUGHT UP IN OUR LIVES THAT WE DO NOT STOP TO GIVE THANKS AND VOICE APPRECIATION FOR OUR MILITARY PERSONNEL.

TODAY, DENNY MANUFACTURING WANTS TO THANK ALL WHO PROTECT OUR COUNTRY AND PUT THEIR LIVES ON THE LINE TO ASSURE THE FREEDOMS THAT WE HAVE COME TO KNOW AND LOVE. THE NEXT TIME YOU SEE MILITARY PERSONNEL, STOP THEM AND THANK THEM FOR THEIR SERVICE. WITHOUT THEM, OUR SAFETY AND FREEDOM WOULD NOT EXIST. GOD BLESS AMERICA AND THOSE WHO SERVE AND PROTECT.

The Fairchilds  
David, Jolene, Alesha and Robert.
