Exquisite Backgrounds, Props and Photographic Accessories Catalog

Photographed by David Brown Denny Scenic Design • Country Cottage Set

**New Reduced
Prices Inside!**

Dear Photographers and Friends,

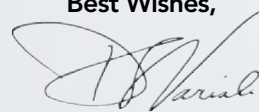

Your photography skills can be enhanced greatly by the tools you use in your studio. Beyond the Camera, Backgrounds, Props and Studio Lighting, are the basic tools we all use as Professional Photographers. Denny Manufacturing has been the leading supplier of these products for more than 35 years.

We make a sincere effort year after year to design and manufacture award-winning backgrounds and props. This year is no exception! We are proud to introduce two new sets: "The Country Cottage" and "The Versailles" Studio sets. In the coming year, we will be designing many new Sets and Props in an attempt to fill the gap left in the marketplace by the insolvency and closing of one of our competitors.

We are also excited to introduce our new line-up of Denny Studio Lighting products and accessories. Please pay special attention to the many new background designs. Through more efficient manufacturing processes, we have reduced the prices on many of our products in this year's catalog.

We encourage you to discover the products that are right for you and know that when you purchase a Denny Manufacturing product, there is no risk to you if you are not completely satisfied. Please give us a call today or see us on the Web at www.dennymfg.com.

Best Wishes,

Denny Variali
Chairman and CEO

WHAT YOU'LL FIND INSIDE...

HAND PAINTED BACKGROUNDS

Our hand painted backgrounds are at a quality level all their own. After 35 years of experience, we've mastered creating the perfect hand painted replicas everytime. We have mastered the most delicate of color changes in our Old Masters, Old Master Textured, Solids, Splashes and Muslins. All together, our five series of hand painted backgrounds are sure to please.

COMPUTER PAINTED BACKGROUNDS

During the past few years, we have come to be the best in delicate color correction of digital images. Working intricately with our scanners, printers, inks and output media, we have also mastered outputting computer painted backdrops which are high quality, cost-effective and very realistic. We can even offer personalization of any image thanks to Denny Colorgraphic's grand format ink jet printing.

SPECIALTY BACKGROUNDS

In addition to our hand painted and computer painted backgrounds, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backgrounds, support systems and miscellaneous items can help your studio function at its best.

ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

OUR SINCEREST THANKS...

We would like to extend a sincere thanks to the professional photographers who contributed to this year's catalog. They include: Bill Abey, Don Blair, Gary Blair, David Brown, Laura Cantrell, Ann Cessna, Marecelino Costa, Mike Daniels, Victor Doran, John Earl, Rex Enochs, Anthony Fiocco, Vicki & Dennis Fisher, Alexian Gardner, Andy Gould, Jeff Gump, Cynthia M. Denny Scenic Design creates an inviting and exciting environment right in your studio. The ambiance of Denny Scenic Design adds interest and intrigue to every photo. Add new dimensions to your photography today!

THE VERSAILLES

The elegant Versailles set is as versatile as it is beautiful. With its movable masonry and opening gate, it can accommodate large groups or a single person with ease. Versailles is the perfect piece for formal events, family photos and any other photo that requires a sense of class.

Michael K. Lamm
Celina, OH

"I have never had a company work so hard for my satisfaction. In the past, I have often had suppliers make promises that they later did not keep. But I would like to commend [Denny] Scenic Design for coming through for me when I needed you."

Joey Coleman
Tabor City, NC

"I have both the Plantation Arch and Midtown sets. They are both wonderful props for my studio. I would highly recommend any of your sets or props to any photographer. The design and durability of your sets is superior because I'm a ding and bang the props type of photographer."

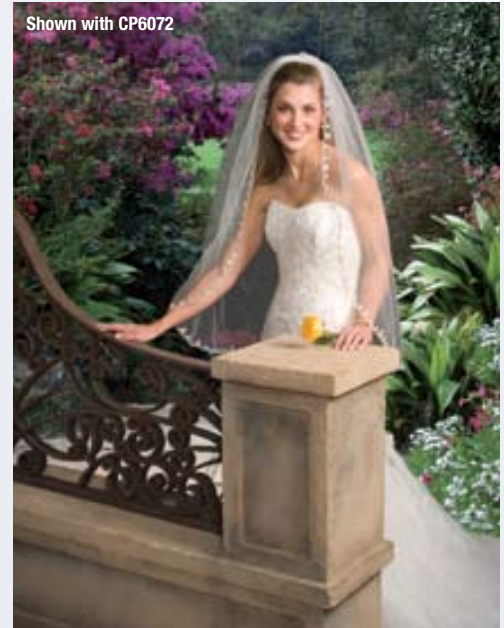

Ron Kramer
Grand, Rapids MI

"I wanted to say thank you for the excellent service you've provided us over the past year. The new sets are fantastic and have made this the most enjoyable year shooting, since starting my studio over 20 years ago."

Kenneth Linge
Orem, UT

"I started using Scenic Design products when I first saw them in 1996, while I was living in Norway. What impressed me was their artistic integrity [Denny] Scenic Design sets look real and that's important to me and my clients."

Computer Painted Old Masters

The Old Master background is a work of art and no two Old Masters have ever been the exact same until now. Masterfully designed, large-format photographed, drum-scanned at a phenomenal resolution and painstakingly reproduced, our Computer Painted Old Masters are simply beautiful. Reproducing these by hand takes so much time we decided to offer them to you perfectly replicated with the original art intact and unchanged. Filled with subtle detail and color shifts, our CPOM line provides Old World style via modern technology.

These Old Masters were created specifically for this process. Ordering these hand painted anywhere else would take a considerable amount of time and would not guarantee the final product's color or such true attention to detail. What you see here is what you get with only a slight color shift due to printing processes of this catalog we cannot control. Full-lengths have a darkened, complementary-colored floor.

NEED A WIDE BACKGROUND TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Computer Painted Muslin (CPM) backgrounds are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Muslin background eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of bad weather on the day of your photo shoot. Choose from any of our Computer Painted Backgrounds. Traditionally, our Computer Painted Backgrounds have been printed on a canvas-like material called Supercloth.

The Computer Painted Muslin backgrounds are made on Wondercloth material which can be easily draped or pulled tight for a more traditional effect. The muslin material is a compact material which easily fits into the FREE muslin bag for easy portability.

When ordering the Computer Painted Muslin background, make sure you specify width x height to avoid any printed dimensional errors. A three inch hem is put in the top width of the background to alleviate the need for background clamps! It is safe to use an iron or steamer on the background should it acquire wrinkles.

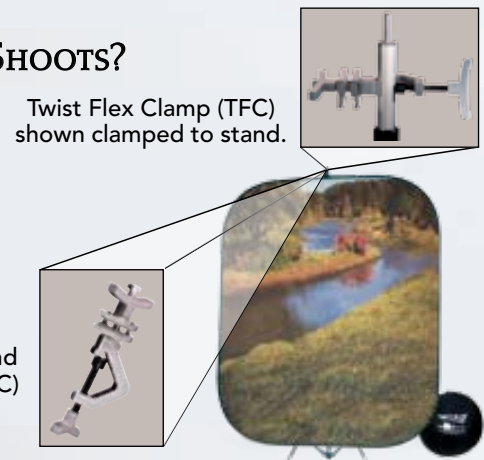

Production time is approximately 2 weeks for Computer Painted backgrounds. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

NEED A QUICK & EASY SET-UP FOR YOUR ON LOCATION SHOTS?

If you like the light compact quality of the Wondercloth backgrounds, but always want the background stretched tight, a Twist-Flex background could be for you! You can get any computer painted background as a Twist-Flex. Twist-Flex backgrounds are available in 5' x 6', 6' x 7' and 6' x 8'. These backgrounds twist down in their self-storing bags to 24", 33", & 35" respectively.

CPTM6239, Single Stand & Twist Flex Clamp (TFC)

LOOKING FOR A UNIQUE BACKGROUND?

If you have an idea that's just what you want but no where to find it, ask one of our friendly sales associates about the possibility of turning your vision into a Computer Painted reality. You can design custom prom backgrounds to be school/theme specific or you can place your customers in front of Mt. Rushmore without leaving the studio. We've completed countless projects that were once only a dream. Send us glossy stock, transparencies, negatives, sketches or you can have us compose a final image for you.

The Studio Full Length Background Design

In order for Denny Manufacturing employees to see and understand your full length background design, we have provided you with this layout guide. Tell us as much as you can by using this helpful information so we can create the background as accurately as possible.

VIGNETTES OR HOT SPOTS

Many backgrounds have a hot spot already in the center. Hot spots can be added or altered to your choice. Please use the diagram when ordering.

WHAT IS WOOD MOUNTING?

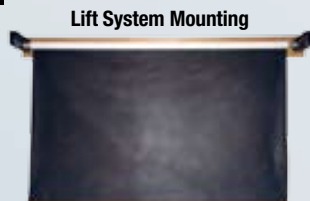

Wood mounting is COMPLIMENTARY on all canvas backgrounds. All wood mounted backgrounds have Velcro straps on each end to keep the background securely rolled up when stored or taking on location.

LIFT SYSTEM MOUNTING

Should you have an existing Lift/Roller System that you will be mounting the background on that you ordered, you may request:

**NO TOP WOOD MOUNTING/
BOTTOM WOOD ONLY!**

If requested, we will only put round wood at the bottom to ship.

Denny Muslin Track Systems

Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Muslin Track Section.
- A 10' wide muslin background takes up 1-1 1/2 feet of storage space on the system.
- Ordering muslin track sections that are 8' wide or less can ship via Federal Express service. All muslin track sections longer than 8' will ship via truck.
- To hang your muslin background, most prefer to use one MCH-15/MC-15 per foot of the background.

Muslin Track System Pricing

Our Muslin Track System keeps your muslin and other fabric backgrounds easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backgrounds can easily be managed on one track. Have your studio dimensions ready for the sales associate to help you order just what you need. Track system sold by the foot and is shipped via FedEx up to 8' in length. Longer pieces require motor freight shipping. One clip and one hook is included with each foot of track sold.

Lighting Equipment (Umbrellas & Light Boxes)

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light....The smaller the light source and the greater the distance from the the subject, the sharper the light.

Umbrellas: If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

Soft Boxes: (Round or rectangular or square) are photographically safer to use than umbrellas.

WHITE UMBRELLA

This Translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

- 4011 (33")\$14 (S-1)
- 4012 (40")\$16 (S-1)
- 4013 (43")\$20 (S-1)

SILVER UMBRELLA

Provides the maximum light output (1/2 F-Stop more light than the other umbrellas), though the light reflected is harsher than the white material. It is best suited as a main light on single individuals when you want more secular highlights in your portrait and if you have a very good understanding of lighting.

- 4021 (36")\$30 (S-1)
- 4022 (40")\$35 (S-1)

40" BLACK & WHITE UMBRELLA

Allows virtually no light to pass through which brings about a very efficient light bounced to the subject. This umbrella is a much safer choice.

- 4014\$25 (S-1)

GOLD UMBRELLA

Gold Umbrella warms the scene and creates healthy-looking skin tones. If you select this light source, you should also use one as your fill light or use a reflector as your fill light. This umbrella is also more secular and is best used for portraits of individuals.

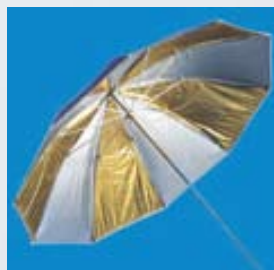

- 4023 (36")\$34 (S-1)
- 4024 (40")\$38 (S-1)

40" DETACHABLE UMBRELLA

Has a removable black, light-blocking cover and a plastic carrying case. Optionally, the umbrella may be used with the light-blocking cover in cases where you do not want the light bouncing around the room and removed when you do want the light bouncing around the room.

- 4015\$29 (S-1)

SILVER / GOLD UMBRELLA

The Silver/Gold Umbrella is warm and yields high contrast image. Great for skin tones.

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted background; you should first format your intended photo shoot so that you can properly determine the size requirements of the background you intend to use.

Width by Height dimensions should always be used.

WHAT IS WOOD MOUNTING?

Wood mounting is COMPLIMENTARY on all canvas backgrounds. All wood-mounted backgrounds have Velcro straps on each end to keep the background securely rolled up when stored or taking on location.

LIFT SYSTEM MOUNTING

Should you have an existing Lift/Roller System that you will be mounting the background on that you ordered, you may request:

**NO TOP WOOD MOUNTING/

If requested, we will only put round wood at the bottom to ship.

It's JUST ONE OF OUR FASTER SHIPPING OPTIONS!

It's Denny's QuickShip! We have selections noted by the "QuickShip" symbol on several size-restricted OM (7'x8'), MM (10'x 24') and TwistFlex (6'x7') backgrounds throughout the catalog. These items may be ordered in quantities up to 3 and can expect shorter shipping times. We keep these popular items in stock, and they can often be shipped within 2 days.

HOW MUCH WILL SHIPPING COST?

In order to serve you better, we have given every item in our catalog a shipping code (see chart below). This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via FedEx ground service only (our first choice). These prices and codes only apply to items that can ship via FedEx. Some items of similar sizes are shipped together to reduce costs. For example, we will ship two 5' x 6' backgrounds together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated. **All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change.**

HOW WE SHIP

We ship by FedEx whenever possible. Merchandise exceeding FedEx weight and size must be shipped via motor freight or air freight. Air freight and motor freight are priced individually, depending on weight. Depend on us to ship the best and cheapest way.

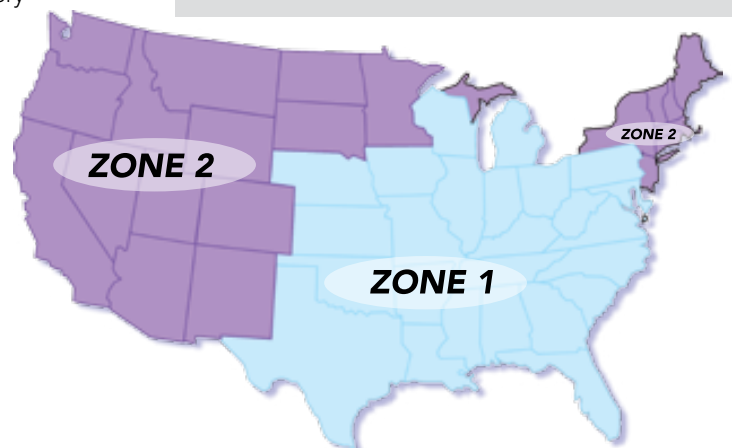

WHAT IF MY ORDER CAN'T BE SHIPPED VIA FEDEX?

Items that are oversized and cannot be shipped by FedEx will be shipped freight collect via a truck line that services your area. We receive discounts with some carriers and will ship your freight the least costly way possible. Sometimes truck companies have additional charges, i.e. residential delivery charges or inside delivery charges. If you run your business from your home, it is best to have an alternate commercial shipping address to direct your shipment. The freight will have to be paid upon delivery; most carriers will accept a company check. All air freight and truck freight is individual. Ask your sales representative to assist you with a freight quote.

LOST OR DAMAGED ORDERS

INSPECT YOUR SHIPMENT IMMEDIATELY UPON RECEIPT!

If damage is discovered, immediately notify the carrier. Without the carrier's inspection report, you will not be compensated for your damage.

ABOUT BACKGROUNDS.

by Bill Abey M. Photog. CR. ASP.

Backgrounds are key elements in the creation of unique quality portraits. They are a vital investment that can provide greater financial return if your selections are based on purpose and versatility as well as imagery. Selections should be based on several important questions which should be answered before making the purchase.

Some of these questions are, what size is best? The size of the background will depend on the type of photography you will be doing; i.e., head & shoulder only, or everything from full length to extreme close-up. Will you photograph vertical and horizontal, adult couples, children only, children and adults, families or all of the above?

Another question is what types of statements will the background help you say: classical, casual, formal, high school senior-oriented, pre-school, families, etc.

Photography means *writing with light*; as we photograph someone we are making a statement about them... The more statements you make about each subject the more portraits you will sell, therefore, an investment in a variety of different style backgrounds is important. Sometimes it's better to invest in a larger 10x18 Computer Painted Pictorial Portrait Background (CP) than several smaller backgrounds; because you can photograph different areas of the background, which is more productive.

In photographing for the Denny catalogue, I put each background through a test that I call *The Versatility Test*[®]; i.e., can I photograph from the floor, ladder, and everywhere in between? How many different looks/statements can I get from the background, by photographing to the left or right side, close-up to full length and everything in between. Backgrounds that pass *The Versatility Test*[®] usually end up being the most popular. You will be able to get greater versatility from a background that includes a floor area.

Props: Look for props that will work with your background. Many can be faux-painted to match or blend with the background. Props help add a 3-D effect and increase posing possibilities. They are a great investment by adding realism and style to the portrait.

BACKGROUND SIZE GUIDE CHART.

For Muslim, Old Master, the CP/Portrait Pictorial Backgrounds and CP/Old Master Backgrounds

10' Wide x 20' Long:

This size will provide you with the greatest versatility and posing possibilities from extreme close-up to full-length portraits of individual adults, children, couples and family group portraits. You will be able to photograph from the floor looking up, a ladder looking down, and everything in between.

Back Wall: 11' wide by 10' high

***Floor Area:** 10' wide by 9' deep

****Subject Placement:** 6'-7' from background

8' Wide x 16' Long:

This size will provide you with versatility and many posing possibilities from extreme close-up to full-length, individual, couples and small group portraits.

Back Wall: 8' wide by 9' high

***Floor Area:** 8' wide by 7' deep

****Subject Placement:** 5'-6' from background

7' Wide x 14' Long:

This size will enable you to photograph extreme close-up to full-length vertical standing of children and $\frac{3}{4}$ -standing of adults, horizontal floor poses of adults, children, even tight couple poses are possible.

Back Wall: 7' wide by 8' high

***Floor Area:** 7' wide by 6' deep

****Subject Placement:** 4'-5' from background

6' Wide x 12' Long:

This size is very portable and will fit in most cars. It is great for full-length portraits of children. It also works for $\frac{3}{4}$ -portraits of adults seated or standing.

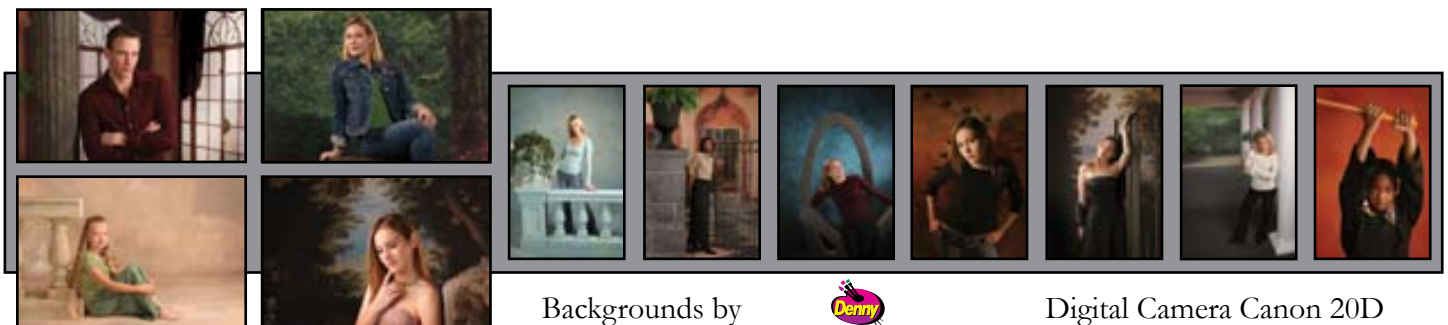

Back Wall: 6' wide by 7.5' high

***Floor Area:** 6' wide by 5' deep

****Subject Placement:** 3'-4' from background

* The floor area can be removed if you are only photographing head & shoulder, $\frac{3}{4}$ -length and hand poses.

** This is the normal subject placement. You are not limited to this distance. As you move the subject and lights closer to the background, it will appear lighter, and shadows may be evident. The opposite is true when you move further away from the background.

Backgrounds by

Digital Camera Canon 20D

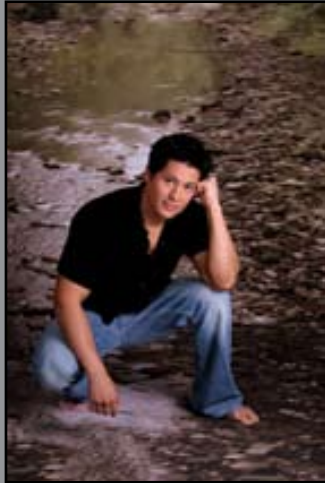

THE VERSATILITY TEST®

It is my opinion that the 10' x 20' size with a 11' H X 10' W back wall is the most versatile. This is due to the fact that you are able to photograph looking up from the floor, down from a ladder, the left side, the right side and everything in between. You are really getting two or three backgrounds for the price of one.

WINDOW-SHADE & KWIK CHANGE PRICING

One mounting choice is our window-shade style. We attach the background you choose to a wood roller with an internal spring or a chain-drive metal roller giving you the ability to maneuver the backgrounds like window shades. On this style, a lighter fabric is used in order to extend the retracting life of your roller. (See our portable and wall mounted system in the Specialty section of the catalog.) In selected sizes, you can choose any of our traditional hand-painted or computer-painted backgrounds as window-shade backgrounds. Please specify the background size and the roller length when ordering. If you have any further questions, please contact our sales department. **Width by Height dimensions should always be used.**
