# 2008

## Dear Photographers and Friends,

Another year has blown past us and 2008 has arrived! I am very excited about this year and the many new products and designs we have prepared for you the Professional Photographer. For years my staff and I have searched the world over for the perfect fabric that could replace the wrinkled look of the Muslin Background and still have the portability aspect. I am happy to say that finally that mission has been accomplished. This year we formally introduce to the market the greatest background ever... "DENNY FREEDOM CLOTH™". We have made a large capital investment in highly specialized equipment and personnel to produce this great product. We can take Hand Painted or Photo Realistic images and produce backgrounds onto this wonderful material. The process involves a Dye Transfer process on to the "Denny Freedom Cloth™". The fabric is much stronger than Muslin, Light Weight, Portable, Washable, Colorfast, and can be Steamed or put in the Dryer. On top of all that, the color rendition is absolutely superb, and most Denny designs can be ordered on Freedom Cloth™.

There are also many other new products being introduced this year. Here are just a few: New Denny Lighting Equipment, Denny Scenic Design sets including the New Design-A-Set, along with the Bourbon and Royal Street sets. Be sure to peruse through the catalog and see our many new background designs. We are known for our Quality Products and superb Customer Service. I personally guarantee your satisfaction or your money back! Please call one of our friendly sales associates to place an order or answer any questions you may have. Also, please visit us on the web at [www.dennymfg.com](http://www.dennymfg.com). Sign up there for our popular e-mail specials where you can save up to 70% off on certain promotions. Have a super year and thank you for your business!

Best Wishes,

Denny Variali  
Chairman and CEO

# WHAT YOU'LL FIND INSIDE...

# TABLE OF CONTENTS

## HAND PAINTED BACKGROUNDS

Our hand painted backgrounds are at a quality level all their own. After 36 years of experience, we've mastered creating the perfect hand painted replicas everytime. We have mastered the most delicate of color changes in our Old Masters, Old Master Textured, Solids, Splashes and Muslins. All together, our five series of hand painted backgrounds are sure to please.

## COMPUTER PAINTED BACKGROUNDS

NEW! **Denny Freedom Cloth™** backgrounds! After years of research to find a lightweight, wrinkle-resistant fabric similar to muslin, we have found the special material! In addition to this fabulous new material, the Computer Painted backgrounds are available in a canvas-like material called "Supercloth" as well as a TwistFlex™ Portable Background.

## SPECIALTY BACKGROUNDS

In addition to our hand painted and computer painted backgrounds, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backgrounds, support systems and miscellaneous items can help your studio function at its best.

## ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

We would like to extend a sincere thanks to the professional photographers who contributed to this year's catalog. They include: Bill Abey, Robert Alvarado, Clay Blackmore, Don Blair, Gary Blair, David Brown, Laura Cantrell, Ann Cessna, Marcelino Costa, Mike Daniels, Victor Doran, John Earl, Rex Enochs, Anthony Fiocco, Vicki & Dennis Fisher, Alexian Gardner, Colleen Gonsar of Colleen & Co., Andy Gould, Jeff Gump, Cynthia M. "With Denny Scenic Design sets I can take a family, child or senior client from Mexico, with the "LaSalsa" set, to Italy by quickly swapping props that will transform the same set. I want to have enough diversity so that I can compliment any subject that steps through my studio door. Denny Scenic Design sets and backgrounds allow me to do just that!"

*Ron Kramer - House of Photography*

**Michael K. Lamm**  
Celina, OH

"I have never had a company work so hard for my satisfaction. In the past, I have often had suppliers make promises that they later did not keep. But I would like to commend [Denny] Scenic Design for coming through for me when I needed you."

**Joey Coleman**  
Tabor City, NC

"I have both the Plantation Arch and Midtown sets. They are both wonderful props for my studio. I would highly recommend any of your sets or props to any photographer. The design and durability of your sets is superior because I'm a ding and bang the props type of photographer."

**Ron Kramer**  
Grand, Rapids MI

"I wanted to say thank you for the excellent service you've provided us over the past year. The new sets are fantastic and have made this the most enjoyable year shooting, since starting my studio 28 years ago."

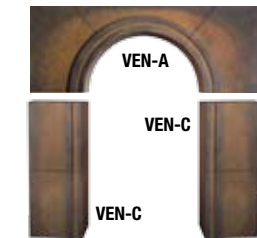

**Kenneth Linge**  
Orem, UT

"I started using Scenic Design products when I first saw them in 1996, while I was living in Norway. What impressed me was their artistic integrity [Denny] Scenic Design sets look real and that's important to me and my clients."

"I purchased my first Denny Background 30 years ago and many more over the years. Denny has always been my source for props and backgrounds. Every year, I go to the trade shows to update and add new ideas to our high school portraits and Denny Manufacturing is always the marketplace. Thanks for helping my business grow with a great variety of photography equipment."

# Computer Painted Old Masters

The Old Master background is a work of art and no two Old Masters have ever been the exact same until now. Masterfully designed, large-format photographed, drum-scanned at a phenomenal resolution and painstakingly reproduced, our Computer Painted Old Masters are simply beautiful. Reproducing these by hand takes so much time we decided to offer them to you perfectly replicated with the original art intact and unchanged. Filled with subtle detail and color shifts, our CPOM line provides Old World style via modern technology.

These Old Masters were created specifically for this process. Ordering these hand painted anywhere else would take a considerable amount of time and would not guarantee the final product's color or such true attention to detail. What you see here is what you get with only a slight color shift due to printing processes of this catalog we cannot control. Full-lengths have a darkened, complementary-colored floor.

## NEED A WIDE BACKGROUND TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Computer Painted Muslin (CPM) backgrounds are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Muslin background eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of bad weather on the day of your photo shoot. Choose from any of our Computer Painted Backgrounds. Traditionally, our Computer Painted Backgrounds have been printed on a canvas-like material called Supercloth.

The Computer Painted Muslin backgrounds are made on Wondercloth material which can be easily draped or pulled tight for a more traditional effect. The muslin material is a compact material which easily fits into the FREE muslin bag for easy portability.

When ordering the Computer Painted Muslin background, make sure you specify width x height to avoid any printed dimensional errors. A three-inch hem is put in the top width of the background to alleviate the need for background clamps! It is safe to use an iron or steamer on the background should it acquire wrinkles.

Production time is approximately two weeks for Computer Painted backgrounds. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

## LOOKING FOR A UNIQUE BACKGROUND?

If you have an idea that's just what you want but no where to find it, ask one of our friendly sales associates about the possibility of turning your vision into a Computer Painted reality. You can design custom prom backgrounds to be school/theme specific or you can place your customers in front of Mt. Rushmore without leaving the studio. We've completed countless projects that were once only a dream. Send us glossy stock, transparencies, negatives, sketches or you can have us compose a final image for you.

## ABOUT BACKGROUNDS.

by Bill Abey M. Photog. CR. ASP.

**B**ackgrounds are key elements in the creation of unique quality portraits. They are a vital investment that can provide greater financial return if your selections are based on purpose and versatility as well as imagery. Selections should be based on several important questions which should be answered before making the purchase.

Some of these questions are, what size is best? The size of the background will depend on the type of photography you will be doing; i.e., head & shoulder only, or everything from full length to extreme close-up. Will you photograph vertical and horizontal, adult couples, children only, children and adults, families or all of the above?

Another question is what types of statements will the background help you say: classical, casual, formal, high school senior-oriented, pre-school, families, etc.

Photography means *writing with light*; as we photograph someone we are making a statement about them... The more statements you make about each subject the more portraits you will sell, therefore, an investment in a variety of different style backgrounds is important. Sometimes it's better to invest in a larger 10' x 18' Computer Painted Pictorial Portrait Background (CP) than several smaller backgrounds because you can photograph different areas of the background, which is more productive.

In photographing for the Denny catalog, I put each background through a test that I call *The Versatility Test*<sup>®</sup> i.e., can I photograph from the floor, ladder, and everywhere in between? How many different looks/statements can I get from the background, by photographing to the left or right side, close-up to full-length and everything in between. Backgrounds that pass *The Versatility Test*<sup>®</sup> usually end up being the most popular. You will be able to get greater versatility from a background that includes a floor area.

**Props:** Look for props that will work with your background. Many can be faux-painted to match or blend with the background. Props help add a 3-D effect and increase posing possibilities. They are a great investment by adding realism and style to the portrait.

## BACKGROUND SIZE GUIDE CHART.

For Muslin, Old Master, the CP/Portrait Pictorial Backgrounds and CP/Old Master Backgrounds

### 10' Wide x 20' Long:

This size will provide you with the greatest versatility and posing possibilities from extreme close-up to full-length portraits of individual adults, children, couples and family group portraits. You will be able to photograph from the floor looking up, a ladder looking down, and everything in between.

**Back Wall:** 10' wide by 11' high

**\*Floor Area:** 10' wide by 9' deep

**\*\*Subject Placement:** 6'-7' from background

### 8' Wide x 16' Long:

This size will provide you with versatility and many posing possibilities from extreme close-up to full-length, individual, couples and small group portraits.

**Back Wall:** 8' wide by 9' high

**\*Floor Area:** 8' wide by 7' deep

**\*\*Subject Placement:** 5'-6' from background

### 7' Wide x 14' Long:

This size will enable you to photograph extreme close-up to full-length vertical standing of children and  $\frac{3}{4}$ -standing of adults, horizontal floor poses of adults, children, even tight couple poses are possible.

**Back Wall:** 7' wide by 8' high

**\*Floor Area:** 7' wide by 6' deep

**\*\*Subject Placement:** 4'-5' from background

### 6' Wide x 12' Long:

This size is very portable and will fit in most cars. It is great for full-length portraits of children. It also works for  $\frac{3}{4}$ -portraits of adults seated or standing.

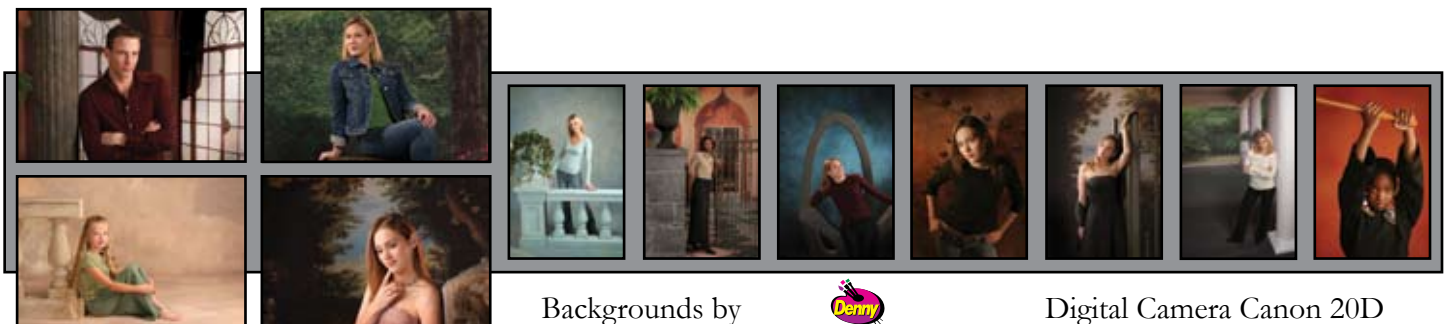

**Back Wall:** 6' wide by 7.5' high

**\*Floor Area:** 6' wide by 5' deep

**\*\*Subject Placement:** 3' - 4' from background

\* The floor area can be removed if you are only photographing head & shoulder,  $\frac{3}{4}$ -length and hand poses.

\*\* This is the normal subject placement. You are not limited to this distance. As you move the subject and lights closer to the background, it will appear lighter, and shadows may be evident. The opposite is true when you move further away from the background.

## JENNIFER TURNER

"I fell in love with the Versailles set as soon as I saw it and just knew we had to add it to our extensive set collection. I have done many sessions inside with this set but it truly found its calling when I placed it outside in our gardens. The uniqueness of it, along with its beauty, gives me an edge over my fellow local photographers, which is so important in this time in our industry. I also adore its versatility, it is amazing in our gardens but when we bring it inside it adds just the right touch to our whimsical portraits, family sessions, and themed work. Whether it's children, seniors or families, this set will definitely take your photography to the next level."

# Denny Muslin Track Systems

## Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Muslin Track Section.
- A 10' wide muslin background takes up 1' - 1 1/2' of storage space on the system.
- Ordering muslin track sections that are 8' wide or less can ship via Federal Express service. All muslin track sections longer than 8' will ship via truck.
- To hang your muslin background, most prefer to use one MCH-15/MC-15 per foot of the background.

## Muslin Track System Pricing

Our Muslin Track System keeps your muslin and other fabric backgrounds easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backgrounds can easily be managed on one track. ## PHOTO BLACK !

The ultimate black material for photography! This special substrate is finished on both sides with a matte finish. The finish allows it to photograph a true black, unlike dyed muslins which reflect and appear grayish. This material also works well with color gels. Each Denny Photo Black background comes with a "rod pocket/hemmed loop" on top for support with a portable background stand system.

## Lighting Equipment Umbrella, Soft Boxes and others from Life

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light.....The smaller the light source and the greater the distance from the the subject, the sharper the light.

**Umbrellas:** If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

**Soft Boxes:** (Round or rectangular or square) are photographically safer to use than umbrellas.

### SAVE 25% NOW NEW

#### WHITE UMBRELLA

This translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

#### SILVER UMBRELLA

Provides the maximum light output (1/2 F-Stop more light than the other umbrellas), though the light reflected is harsher than the white material. It is best suited as a main light on single individuals when you want more secular highlights in your portrait and if you have a very good understanding of lighting.

# A QUICK OVERVIEW

## Before You Order, You Should Know...

### PICK YOUR SIZE AND STATE IT CLEARLY

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted background; you should first format your intended photo shoot so that you can properly determine the size requirements of the background you intend to use.

**Width by Height dimensions should always be used.**

### RETURN POLICY

This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via FedEx ground service only (our first choice). For example, we will ship two 5' x 6' backgrounds together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated. **All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change. We ship by FedEx whenever possible. Merchandise exceeding FedEx weight and size must be shipped via motor freight or air freight. Air freight and motor freight are priced individually, depending on weight. Depend on us to ship the best and cheapest way.

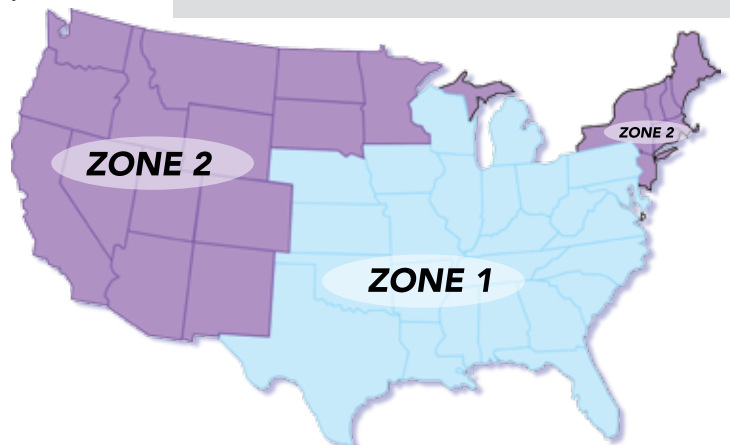

## WHAT IF MY ORDER CAN'T BE SHIPPED VIA FEDEX?

Items that are oversized and cannot be shipped by FedEx will be shipped freight collect via a truck line that services your area. We receive discounts with some carriers and will ship your freight the least costly way possible. Sometimes truck companies have additional charges, i.e. residential delivery charges or inside delivery charges. If you run your business from your home, it is best to have an alternate commercial shipping address to direct your shipment. The freight will have to be paid upon delivery; most carriers will accept a company check. All air freight and truck freight is individual. Ask your sales representative to assist you with a freight quote.

We can also create custom backgrounds from your transparencies or reflective art, or even alter our backgrounds to fit your specific needs. Please call for more information regarding custom work. All CPs are available in custom sizes upon your request, call for pricing information. Please allow 2 to 3 weeks production time for all Computer Painted backgrounds. **Width by Height dimensions should always be used.**

## WINDOW-SHADE & KWIK CHANGE PRICING

One mounting choice is our window-shade style. We attach the background you choose to a wood roller with an internal spring or a chain-drive metal roller giving you the ability to maneuver the backgrounds like window shades. On this style, a lighter fabric is used in order to extend the retracting life of your roller. (See our portable and wall mounted system in the Specialty section of the catalog.) In selected sizes, you can choose any of our traditional hand-painted or computer-painted backgrounds as window-shade backgrounds. Please specify the background size and the roller length when ordering. If you have any further questions, please contact our sales department. **Width by Height dimensions should always be used.**
