To Our Customers and Friends,

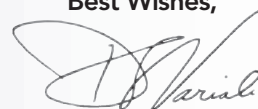

Despite the ongoing recession currently affecting the marketplace, Denny Manufacturing Company continues to thrive and bring many new products to the photographic industry this year. Last year, we introduced our new backdrop material "Freedom Cloth™" which was a resounding success. Denny Freedom Cloth™ continues to be one of the greatest new products ever to be introduced to the Professional Portrait Market. We have added many new backdrop designs this year to include Hand-Painted and Computer Painted Designs. Most designs can be produced on Freedom Cloth™ and other materials we offer depending on your needs.

I am extremely excited about our new line of Studio Lighting, "Safari Luminations™". These new lights are simple, reliable and can be used inside or outdoors since they have AC/DC capability. The patented "Zebra Soft Box™" line is foldable and operates similar to an umbrella for ease in setting up.

For nearly 38 years, we have taken great pride in our product quality and customer service. There is such great value in our products, and to back that up we have the best customer service in the industry. If you are not happy, we are not happy, and we will go to great lengths to rectify any problem you may have. I personally guarantee your satisfaction or your money back!

I hope you like our new catalog and the many new products we have to offer. Please give one of our friendly sales associates a call, or visit us on the web at www.dennymfg.com. Have a great year and we thank you for your business.

Best Wishes,

Denny Variali
Chairman and CEO

WHAT YOU'LL FIND INSIDE...

HAND-PAINTED BACKDROPS

Our Hand-Painted backdrops are at a quality level all their own. After 38 years of experience, we've mastered creating the perfect Hand-Painted replicas everytime. We have mastered the most delicate of color changes in our Old Masters, Solids, Splashes and Muslins. All together, our series of Hand-Painted backdrops are sure to please.

COMPUTER PAINTED BACKDROPS

NEW! **Denny Freedom Cloth™** backdrops! After years of research to find a lightweight, wrinkle-resistant fabric similar to muslin, we have found the special material! In addition to this fabulous new material, the Computer Painted backdrops are available in a canvas-like material called "Supercloth" as well as a TwistFlex™ Portable Backdrop.

SPECIALTY BACKDROPS

In addition to our Hand-Painted and computer painted backdrops, we offer a large selection of unique fabrics and papers. We carry several support systems from which you can choose your best fit. These backdrops, support systems and miscellaneous items can help your studio function at its best.

ARE THOSE COLORS FOR REAL?

Yes, as accurate as humanly possible. There are several factors we must take into account when printing images that need to be as accurate as possible. We work closely with the best printer we've found, and do everything we can do to ensure accurate colors. However, please keep in mind the factors we cannot control such as, the storage of your catalog and the lighting by which you're viewing the catalog.

OUR SINCEREST THANKS...

We would like to extend a sincere thanks to the professional photographers who contributed to this year's catalog. They include: Bill Abey, Aaron Adams, Robert Alvarado, Joe Bailey, Clay Blackmore, Don Blair, Gary Blair, David Brown, Laura Cantrell, Ann Cessna, Jordan Chan, Cody Clinton, Marcelino Costa, Lane Crabtree, Mike Daniels, Jessica Dittmer, Victor Doran, John Earl, Rex Enochs, Lew Everling, Anthony Fiocco, Vicki & Dennis Fisher, Hanson Fong, Patty Fox, Mike Fulton, Alexian Gardner, Colleen Gonsar of Colleen & Co., Andy Gould, Jeff Gump, Cynthia M. NEED A WIDE BACKDROP TO PHOTOGRAPH A TEAM OR LARGE GROUP?

Our Computer Painted Freedom Cloth™ (CPM) backdrops are convenient for shooting on location and are very realistic looking. Having a Photo Realistic Backdrop eliminates the need to reschedule outdoor photo shoots due to rain. The totally realistic image will achieve that outdoor look without the fear of bad weather on the day of your photo shoot. Choose from any of our Computer Painted Backdrops. Traditionally, our Computer Painted Backdrops have been printed on a canvas-like material called Supercloth.

The Computer Painted Freedom Cloth™ backdrops are made on wrinkle-free material which can be easily draped or pulled tight for a more traditional effect. The material is a compact which easily fits into the FREE muslin bag for easy portability.

When ordering Freedom Cloth™ backdrops, make sure you specify width x height to avoid any printed dimensional errors. A three-inch hem is put in the top width of the backdrop to alleviate the need for backdrop clamps! It is safe to use an iron, steamer or dryer on the backdrop should it acquire wrinkles.

Production time is approximately 2-3 weeks for Computer Painted backdrops. Please check with one of Denny's friendly sales associates to find out the current production time when ordering.

NEED A QUICK & EASY SET-UP FOR YOUR ON LOCATION SHOTS?

You can get any computer painted backdrop as a TwistFlex™. TwistFlex™ backdrops are available in 5' x 6' and 6' x 7'. These backdrops twist down in their self-storing bags to 24" & 33" respectively.

Another Denny Exclusive!

After years of concerns over sagging and creasing canvas, Denny has found a special material called Super Cloth™! This is a tighter woven material that has proven over time to be more durable and have greater longevity than standard artists canvas. All backdrops are mounted with flat wood across the top of all backdrops. Three 5/8" holes are drilled on the back of the top wood which allows easy insertion of backdrop stand. A round dowel is attached along the bottom width of each backdrop. Velcro straps on each end keep it securely closed when not in use.

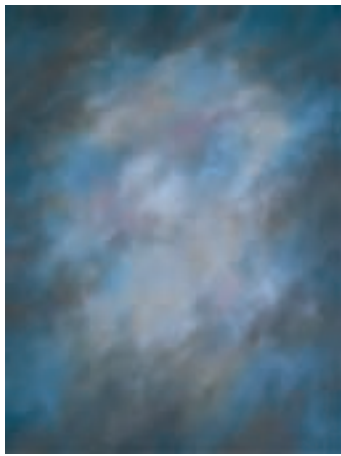

WHAT IS WOOD MOUNTING?

Wood mounting is **COMPLIMENTARY** on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

CLAY BLACKMORE

"My goal as a portrait artist is to remove distractions from the individual's face. I never go on an assignment without a Denny Backdrop. The new OM2410 Blackmore backdrop complements my complete selection of hand painted canvases. Thanks to Denny Manufacturing, I can continue to provide my clients with beautiful backdrops that complement their portraits."

TIM & BEVERLY WALDEN

"Years ago when Beverly and I were looking for the perfect backdrop for our "Relationship" Black & White portraiture, we contacted the folks at Denny Manufacturing. They helped us develop what is now called the "Walden Backdrop" [OM2275]. Every aspect of a Walden portrait is important to me, as I believe everything involved will either support or hinder the image. The backdrop I choose is one of the most important parts of my decision process."

TRICOAST PHOTOGRAPHY

"We recently opened up a studio and with every other aspect of our business we wanted to stand out from the rest and Denny's Freedom Cloth does just that. The ease of use and amazing wrinkle free material matched with designs second to no one in the business has taken our work to another level. I know when I unfold a Denny's backdrop during a session and I quietly hear our clients say 'Wow look at that backdrop' I know their experience at TriCoast will be a positive one even before we click the shutter. Mixed in with their portable softboxes, Lights and Props, simply put, Denny's helps sell the Experience we give to our clients better than anyone else, and due to it, I can not see ever using another background/prop company."

RON KRAMER

"Today, more than ever, we true professionals need to separate our work from the masses who have a camera and a tree in their backyard. With the addition of Denny Scenic Design sets and props, I can offer looks that no one else in my area can offer. And with the speed of changing from set to set without ever leaving my studio, this translates to maximum profits!

While I've seen dozens of other set and backdrop companies come and go, Denny Manufacturing has remained No. 1 for over 3 decades! This sort of longevity isn't possible without offering the finest products, pricing, service and support that we've come to expect from Denny Manufacturing."

COLLEEN GONSAR AND DARTY HINES

Colleen Gonsar

Darty Hines

"Colleen & Co. is constantly looking for props and backdrops to separate our studio from the competition. The new Denny Freedom Cloth is AMAZING! We often look for a muslin that is both versatile and unique. The vibrant colors and design of this Freedom Cloth is just that. As an added bonus, the material is virtually wrinkle free, even after multiple uses. We just hang it up and start shooting. This unbelievable fabric is just what the photography industry has been waiting for in cloth backdrops."

The Jump Street set gives the realistic feel of a back alley without leaving our studio property. By having this set at our disposal, we no longer have to hunt down that perfect location, which saves us time during a senior session."

"Wow! My clients are going crazy over our new Country Cottage set from Denny Manufacturing. Its simple elegance makes Country Cottage suitable for both casual and formal wardrobe. This is also a great set to use on bad-weather days because it brings the look of outdoors into the studio. This wall set is easy to move and set up, making it a snap to use on a whim. Our sales figures further prove what a great investment Country Cottage has been. I can't say enough about the value this set has brought to my business."

JENNIFER TURNER

"I fell in love with the Versailles set as soon as I saw it and just knew we had to add it to our extensive set collection. I have done many sessions inside with this set but it truly found its calling when I placed it outside in our gardens. The uniqueness of it, along with its beauty, gives me an edge over my fellow local photographers, which is so important in this time in our industry. I also adore its versatility, it is amazing in our gardens but when we bring it inside it adds just the right touch to our whimsical portraits, family sessions, and themed work. Whether it's children, seniors or families, this set will definitely take your photography to the next level."

JEN HILLENGA

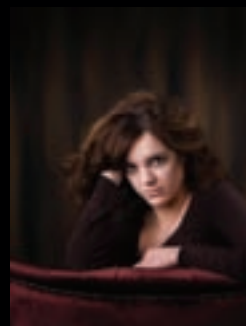

"I am in love with my new canvases from Denny!!! I have several Old Masters canvases and I can't speak more highly of their quality. They add such depth to my images they are just a joy to photograph! There is just such a richness that is lacking in other canvases I have had. They have quickly become my "go to" backgrounds....the ones I know will work... the ones I start each session with...the ones that get me my "money shots". Debra and the group at Denny Manufacturing have been great to work with! It isn't often that you find a company that provides a superior product and has the customer service to go with it.... that is how I try to run my studio and it means a lot to me when I find a vendor who shares that philosophy."

Denny Muslin Track Systems

Helpful Information

- Always inform salesperson which bracket is needed (ceiling or wall.)
- All MTX-90 (90 degree corners) are 36" long.
- Each MTX-90 (90 degree corner) accounts for 1 1/2' of space each direction. To estimate track along 1 side using two MTX-90 (90 degree corners), you must subtract a total of 3' from the total wall space. Therefore, if only one MTX-90 is used, subtract 1 1/2' from the total space available. Example: If 8' is the available space on one side and only one MTX-90 is used, you would need one 6 1/2' Muslin Track Section.
- A 10' wide muslin backdrop takes up 1' - 1 1/2' of storage space on the system.
- Ordering muslin track sections that are 8' wide or less can ship via Federal Express service. All muslin track sections longer than 8' will ship via truck.
- To hang your muslin backdrop, most prefer to use one MCH-15/MC-15 per foot of the backdrop.

Muslin Track System Pricing

Our Muslin Track System keeps your muslin and other fabric backdrops easily accessible and ready to use by storing them along your studio walls. Combine straight track pieces and 90° corner pieces to make the system fit your studio perfectly. Several backdrops can easily be managed on one track. Have your studio dimensions ready for the sales associate to help you order just what you need. Track system sold by the foot and is shipped via FedEx up to 8' in length. Longer pieces require motor freight shipping. One clip and one hook is included with each foot of track sold.

"I have never had a company work so hard for my satisfaction. In the past, I have often had suppliers make promises that they later did not keep. But I would like to commend [Denny] Scenic Design for coming through for me when I needed you."

Joey Coleman
Tabor City, NC

"I have both the Plantation Arch and Midtown sets. They are both wonderful props for my studio. I would highly recommend any of your sets or props to any photographer. The design and durability of your sets is superior because I'm a ding and bang the props type of photographer."

Ron Kramer
Grand, Rapids MI

"I wanted to say thank you for the excellent service you've provided us over the past year. The new sets are fantastic and have made this the most enjoyable year shooting, since starting my studio 28 years ago."

Kenneth Linge
Orem, UT

"I started using Scenic Design products when I first saw them in 1996, while I was living in Norway. What impressed me was their artistic integrity [Denny] Scenic Design sets look real and that's important to me and my clients."

PHOTO BLACK

The ultimate black material for photography! This special substrate is finished on both sides with a matte finish. The finish allows it to photograph a true black, unlike dyed muslins which reflect and appear grayish. This material also works well with color gels. Each Denny Photo Black background comes with a "rod pocket/hemmed loop" on top for support with a portable background stand system.

Umbrellas, Light Cube Kit & Denny Rail System

Use the following tips to achieve the best possible lighting for your photo shoots. The larger the light source and the closer the light is to your subject, the softer the light.....The smaller the light source and the greater the distance from the the subject, the sharper the light.

Umbrellas: If umbrellas are improperly set up, it can cause lens flare. When setting up an umbrella, make sure the light fills the umbrella and does not spill outside the edge of the umbrella. Umbrellas are best used behind the camera.

Soft Boxes: (Round or rectangular or square) are photographically safer to use than umbrellas.

Save 25%

WHITE UMBRELLA

This translucent material can be used to light through it or bounce the light. It provides even, soft and diffused light. About 60% of the light can be transmitted through the material while bounced light will be a little stronger. This also causes light to bounce around the room giving you additional fill. If the room has a color other than white, this color may be reflected into the shadow areas.

SILVER UMBRELLA

Provides the maximum light output (1/2 F-Stop more light than the other umbrellas), though the light reflected is harsher than the white material. It is best suited as a main light on single individuals when you want more secular highlights in your portrait and if you have a very good understanding of lighting.

UMBRELLA SOFTBOX

The UMSB40D is a Light Diffuser and the UMSB40R is a Light Reflector. Both are commonly referred to as the "Brolly Box". This device conveniently attaches to a light in the same manner as an umbrella, then cinches around the faceplate to contain the light. The resulting light effect closely emulates that of a comparably sized softbox.

NEW! Safari Luminations FOLDABLE Softboxes

Denny's New Zebra Foldable Softboxes has easy umbrella-like assembly which saves you time and frustration from the standard Softboxes that require a lot of time with rod assembly. The patented Zebra Foldable Softboxes are available Rectangular, Octagonal, Square and as a Strip box in a variety of sizes to accommodate your studio needs.

What are Softboxes? Softboxes were developed to help guide the direction of lighting needed for different types of portraiture. The perfect quality of light can be achieved by using the right type and/or quantity of Softboxes and Grids. The choice of Softbox and/or grid helps determine the coverage of light on the subject and the backdrop. Softboxes are often easier to manage than umbrellas when it comes to controlling the amount of light that falls on the backdrop or background of an image. A softbox can be 'feathered', or aimed to direct stray light away from the background. "Barn doors" and "honeycomb grids" can also be used to restrict the area illuminated by softboxes.

NEW! Soft Box Light Grids

What are Grids? Grids are important accessories for lighting systems. The use of grids alters the intensity and the shape of the light output from your softbox. To achieve a more narrow wash of light, use a grid. The wash of light will be determined by the density of the grid and the distance of the light from the subject.

A QUICK OVERVIEW

Before You Order, You Should Know...

PICK YOUR SIZE AND STATE IT CLEARLY

Width and height requirements are determined by your intended use and size of your subject group in relationship to your camera, lens configuration, lighting, accessories included in the shot and your overall style of photography. A helpful hint before ordering a canvas or any hand-painted backdrop; you should first format your intended photo shoot so that you can properly determine the size requirements of the backdrop you intend to use.

Width by Height dimensions should always be used.

SHIPPING INFORMATION

WHAT IS WOOD MOUNTING?

Wood mounting is **COMPLIMENTARY** on all canvas backdrops. All wood mounted backdrops have Velcro straps on each end to keep the backdrop securely rolled up when stored or taking on location.

LIFT SYSTEM MOUNTING

If you have an existing Lift/Roller System that you will be mounting the backdrop on that you ordered, you may request:

NO TOP WOOD MOUNTING/BOTTOM WOOD ONLY!

If requested, we will only put round wood at the bottom to ship.

HOW WE SHIP

We ship by FedEx whenever possible. Merchandise exceeding FedEx weight and size must be shipped via motor freight or air freight. Air freight and motor freight are priced individually, depending on weight. Depend on us to ship the best and cheapest way.

LOST OR DAMAGED ORDERS

INSPECT YOUR SHIPMENT IMMEDIATELY UPON RECEIPT! If damage is discovered, immediately notify the carrier. Without the carrier's inspection report, you will not be compensated for your damage.

What is that Q in the Corner?

It's JUST ONE OF OUR FASTER SHIPPING OPTIONS!

It's Denny's QuickShip! We have selections noted by a "Q" (QuickShip) symbol on several size-restricted MM (Master Muslin 10'x24') and TwistFlex (size 6'x7' only) backdrops throughout the catalog. Any OM (Old Master Hand-Painted) canvas backdrop is available as a Quickship in a size 7'x8' only. These items may be ordered in quantities up to 3 and can expect shorter shipping times. We keep these popular items in stock and they can often be shipped within 2-3 business days after the order has been processed.

HOW MUCH WILL SHIPPING COST?

In order to serve you better, we have given every item in our catalog a shipping code (see chart below). This code will represent the amount you will pay for shipping and handling when the item is shipped from our facilities to you via FedEx ground service only (our first choice). These prices and codes only apply to items that can ship via FedEx. Some items of similar sizes are shipped together to reduce costs. For example, we will ship two 5' x 6' backdrops together in the same tube to save you money. However, not all items can be shipped together. Air freight or truck freight is individual. Ask your sales representative to assist you in what can and cannot be consolidated. **All shipping charges listed in this catalog are estimates. The actual cost of shipping is subject to change. All duties and taxes are to be paid by the recipient.**
